

#TECHOGNITION

5-9 March 2018

A national celebration of School Science Technicians, recognising the importance of this essential role in science education.

During #TECHOGNITION week:

- 1** Take a photo of yourself or a technician colleague performing a weird, wonderful or routine but genuine technician job.
- 2** Upload it to Twitter, Facebook or Instagram using the #TECHOGNITION hashtag and a brief explanation of what you're doing in the photo.
- 3** You may also upload the photo to our event website at www.techognition.org where you will be entered into a daily prize draw.
- 4** Share #TECHOGNITION posts on social media and keep an eye on www.techognition.org for news and giveaways from our event partners.

THANK YOU for taking part – together we can raise the profile of school science technicians by showing the world what we actually do at work.
